

Special Issue on Bioscience and Immunology

Call for Papers

Immunology is a branch of biology and medicine that focuses on basic immune mechanisms and molecular basis of immune diseases in all organisms. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Bioscience and Immunology.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Bioscience and Immunology**. Potential topics include, but are not limited to:

- Autoimmunity
- Immunodeficiency
- Erythematosus
- Immunotherapy
- Immunoassay
- Cancer immunology
- Immune dysfunction
- Autoimmune diseases
- Allergies
- Veterinary immunology
- Immunology and immunopathology
- Immune system
- Innate and adaptive immunity
- Immune cell development and differentiation
- Immune control of pathogens
- Human immunodeficiency and autoimmune diseases

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Bioscience and Immunology**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	August 12th, 2024
Publication Date	October 2024
