

Special issue on Tropical and Environmental Medicine

Call for Papers

Tropical medicine is the branch of medicine that deals with health problems that occur uniquely, are more wide-spread, or prove more difficult to control in tropical and subtropical regions. Environmental medicine involves studying the interactions between environment and human health, and the role of the environment in causing or mediating disease.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Tropical and Environmental Medicine**.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue- Tropical and Environmental Medicine**" should be chosen during your submission.

According to the following timetable:

Manuscript Due	May 29th, 2013
Publication Date	July 2013

Guest Editor

Prof. Kota V. Ramana
University of Texas Medical Branch, USA
