

Special Issue on Bioinformatics

Call for Papers

Bioinformatics is an interdisciplinary field that develops methods and software tools for understanding biological data. As an interdisciplinary field of science, bioinformatics combines computer science, statistics, mathematics, and engineering to study and process biological data.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **bioinformatics**. Potential topics include, but are not limited to:

- Sequence analysis
- Gene and protein expression
- Structural bioinformatics
- Network and systems biology
- Databases, software and tools
- Others

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Bioinformatics**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	June 25th, 2015
Publication Date	August 2015
