

## Special Issue on Semantic Web

### Call for Papers

Semantic Web is a maturing field of technology that continues to be the emphasis of much focused research. These areas include: knowledge technologies, ontology, agents, databases and the semantic grid, obviously disciplines like information retrieval, language technology, human-computer interaction and knowledge discovery are of major relevance as well.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Semantic Web**. Potential topics include, but are not limited to:

- Knowledge technologies
- Ontology
- Agents
- Databases
- Semantic grid and peer-to-peer technology
- Information retrieval
- Language technology
- Human-computer interaction
- Knowledge discovery
- Web standards
- Security, quality, scalability, and performance
- Semantic web data management
- Social semantic web

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Semantic Web**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 20th, 2016
Publication Date	January 2017
