

Special Issue on Colorectal Cancer and Treatments

Call for Papers

Colorectal cancer, also called colon cancer, rectal cancer or bowel cancer, is the third most common type of cancer in the world. Many factors may result in colorectal cancer including unhealthy lifestyle, old age, inherited genetic disorders, exposure to radiation and so on. To defeat colorectal cancer, combination of surgery, radiation therapy, chemotherapy and targeted therapy may be used.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Colorectal Cancer and Treatments**. Potential topics include, but are not limited to:

- Causes
- Signs and symptoms
- Resection and anastomosis
- Local excision or simple polypectomy
- Chemotherapy
- Clinical trials of new chemotherapy regimens after surgery
- Radiofrequency ablation or cryosurgery
- Chemoembolization of the hepatic artery
- Radiation therapy
- Targeted therapy
- Palliative care

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Colorectal Cancer and Treatments**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	September 30th, 2015
Publication Date	November 2015

Guest Editor:

Scientific Research
Open Access

Journal of Cancer Therapy

ISSN Online: 2151-1942
