

Special Issue on Prostate Cancer

Call for Papers

Prostate cancer is the cancer that develops in man's prostate, a gland that produces the seminal fluid that nourishes and transports sperm. It is one of the most common cancers in men. Initially, it may cause no symptoms, but can lead to serious conditions in later stages. Treatment includes surgery, chemotherapy, cryotherapy, hormonal therapy, radiation, etc.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Prostate Cancer**. Potential topics include, but are not limited to:

- Prostate imaging
- Prostate biopsy
- Radical prostatectomy
- Aggressive prostate cancer
- Prostate brachytherapy
- Castration resistant prostate cancer
- Transurethral resection of the prostate
- Hormone refractory prostate cancer
- Diet and lifestyle

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Prostate Cancer**” should be selected during your submission.

Special Issue Timetable:
