

## Special Issue on Solid Tumors

### Call for Papers

Solid tumors are abnormal masses of tissue that originate in organs or soft tissues that typically do not include fluid areas and cysts. Solid tumors may be benign or malignant, which can develop in many parts of the body including the brain, kidneys, liver and bones. Different types of solid tumors are named after the types of cells that compose them.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Solid Tumors**. Potential topics include, but are not limited to:

- Hepatocellular carcinoma
- Melanoma
- Neuroblastoma
- Renal cell carcinoma
- Retinoblastoma
- Rhabdomyosarcoma

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Solid Tumors**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 28th, 2017
Publication Date	April 2017
