**Special Issue on**  
**Radiation Therapy in the Treatment of Cancer**

**Call for Papers**

Radiation therapy, also called radiotherapy, is therapy using ionizing radiation, generally as part of cancer treatment to control or kill malignant cells and normally delivered by a linear accelerator. About half of all cancer patients receive some type of radiation therapy sometime during the course of their treatment.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Radiation Therapy in the Treatment of Cancer**. Potential topics include, but are not limited to:

- External beam radiation therapy
- Stereotactic radiation
- Radiosurgery
- Intensity-modulated radiation therapy
- Volumetric modulated arc therapy
- Particle therapy
- Brachytherapy
- Intraoperative radiotherapy
- IORT in breast cancer

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Radiation Therapy in the Treatment of Cancer**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 16th, 2017
Publication Date	January 2018

**Guest Editor:**
