

## Special Issue on Solid Waste Management

### Call for Papers

**Solid Waste Management** is a worldwide problem and it is becoming more and more complicated day by day due to rise in population, industrialization as well as changes in our life style. Presently most of the waste generated is either disposed of in an open dump in developing countries or in landfills in the developed ones. Landfilling as well as open dumping requires lot of land mass and could also result in several environmental problems. As one of most important worldwide problems in the modern life, **solid waste management** is of great attractions to researchers.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **solid waste management**. Potential topics include, but are not limited to:

- Municipal solid waste
- Integrated solid waste management
- Solid waste pollution
- The classification of solid waste screening
- Immobilization of solid waste
- The processing of solid wastes
- Recycling of solid waste

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Solid Waste Management**” should be chosen during your submission.

According to the following timetable:

|                     |                 |
|---------------------|-----------------|
| Submission Deadline | July 10th, 2014 |
| Publication Date    | September 2014  |

**Guest Editor:**

**Scientific Research**  
*Open Access*

**Journal of  
Environmental Protection**  
ISSN Online: 2152-2219
