

Special Issue on Environmental Protection and Management

Call for Papers

Environmental protection generally refers to the general term for various actions taken by human beings to solve real or potential environmental problems, coordinate the relationship between human beings and the environment, protect the living environment of human beings, and ensure the sustainable development of the economy and society. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Environmental Protection and Management**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Environmental Protection and Management**. Potential topics include, but are not limited to:

- Chemical pollutants and its effects on health
- Hazardous materials management
- Land pollution
- Water pollution
- Environmental toxicology
- Ecosystem restoration
- Noise pollution
- Water resources and quality assessment
- Environmental policy
- Approaches to environmental protection
- Environmental modelling

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Environmental Protection and Management**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	June 9th, 2021
Publication Date	August 2021
