

Special Issue on Financial and Quantitative Analysis

Call for Papers

Financial analysis is also called financial statement analysis or accounting analysis or financial analysis, which refers to the assessment of the feasibility, stability and profitability of a business or a project. Quantitative finance is the analysis of knowledge in financial field by mathematical and statistical methods. Quantitative analysis is an analysis of the company's quantifiable data by the investment analyst using the mathematical module. It evaluates the company's operation and makes investment judgment through the analysis. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Financial and Quantitative Analysis**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Financial and Quantitative Analysis**. Potential topics include, but are not limited to:

- Quantitative methods of finance
- Quantitative analysis of financial theory
- Corporate finance, investments, capital and security markets
- Financial analysis, planning and forecasting
- Financial management and analysis
- Financial analysis: tools and techniques
- Quantitative finance and risk management
- Quantitative finance and accounting
- Quantitative investment management

Authors should read over the journal's For Authors carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's Paper Submission System.

Please kindly specify the "Special Issue" under your manuscript title. The research field "Special Issue - Financial and Quantitative Analysis" should be selected during your submission.
