## Special Issue on Research on Quantum Physics

## **Call for Papers**

Since its birth about one century ago, quantum mechanics has been full of controversy due to its many counter-intuitive features, such as wave-function collapse, randomness in measurement, non-local entanglement, wave-particle duality, uncertainty principle, etc. To cope with these puzzles and difficulties, different interpretations have been proposed to make quantum mechanics look like rational and self-consistent, such as: Copenhagen interpretation, many-worlds interpretation, von Neumann/Wigner interpretation which claims that consciousness causes the collapse, etc. The controversy in quantum mechanics is actually one of the propelling forces behind the advances of quantum physics. Many experiments have also been conducted to test the weirdness of quantum mechanics. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of quantum physics.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **research on quantum physics**. In this special issue, potential topics include, but are not limited to:

- Quantum optics
- Quantum electronics
- Quantum technology
- Quantum information
- Quantum computing
- Interpretation of quantum mechanics
- Interaction-free measurements
- Quantum measurement
- Quantum condensed matter
- Quantum gravity
- Quantum chemistry

Authors should read over the journal's <u>Authors' Guidelines</u> carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's <u>Paper Submission System</u>.

Please kindly specify the "Special Issue" under your manuscript title. The research field "Special Issue – Research on Quantum Physics" should be selected during your submission.

Special Issue timetable:

## **Journal of Modern Physics**

**ISSN Online: 2153-120X** 

Submission Deadline	July 28th, 2016
Publication Date	September 2016

## **Guest Editor:**
