## Journal of Power and Energy Engineering

ISSN Print: 2327-588X ISSN Online: 2327-5901

<http://www.scirp.org/journal/jpee>

Journal of Power and Energy Engineering (JPEE) is an international journal dedicated to the latest advancement of power and energy engineering. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of power and energy engineering.

### Editor-in-Chief

Prof. Elias Stefanakos

University of South Florida, USA

### Editorial Board

Dr. Roberto Capata

Prof. Wei-Hsin Chen

Dr. Chun-Hu Cheng

Prof. D. Yogi Goswami

Prof. Zhongjie Huan

Dr. Freddie Liswaniso Inambao

Prof. Ching-Fuh Lin

Prof. Rodolfo López

Prof. Elham B. Makram

Prof. M. Ramamoorthy

Prof. Nikolai Voropai

Prof. Chao Xu

Dr. Wenxian Yang

### Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

#### 1. Power Generation—Conventional and Renewable

Bio-energy technologies, process and utilization  
Environmental-friendly technologies for power generation  
Geothermal and tidal wave energy  
Hydropower technologies and applications  
New technologies and design for energy efficiency  
New technologies for minimizing CO<sub>2</sub> generation  
Photovoltaic for solar power applications  
Safe nuclear energy generation and utilization  
Thermal power technologies and applications  
Waste products as fuel  
Wind power generation and utilization  
Other sustainable energy

#### 2. Power System Management

Application of wide area measurement system (WAMS)  
Control strategies for modern power system stability  
Integrated substation automation technologies  
Load modeling, estimation and forecast  
Modeling and simulation of large power systems  
Online monitoring and fault diagnosis system  
Power system analysis and optimization  
Power system management technologies

Power system monitoring and mitigation technologies

Power system planning and operation

#### 3. Power Transmission and Distribution

Advanced distribution and SCADA technologies  
Electromagnetic analysis in power systems  
Electromagnetic compatibility in power systems  
Electromagnetic transient in high voltage power systems  
HVDC and flexible AC transmission system (FACTS)  
Insulation condition monitoring in power systems  
Over-voltage, lightning protection and grounding  
Plasma physics and the pulsed power technology  
Ultra High Voltage (UHV) technologies

#### 4. Smart Grid Technologies

Agent-based Computational Economics for Grid  
Agent-based mechanisms for Grid markets  
Agent-based simulation of Grid environments and markets  
Automated negotiation for Grid resource allocation  
Engineering of Grid markets and Grid architectures  
Modeling of Grid environments  
Resource allocation in Grid scenarios using agent-based approaches  
Technical research on future application domains

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques

### Notes for Intending Authors

The submitted manuscript should not have been previously published in any form and must not be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All paper are refereed through a peer process. For more details about the submissions, please access the website.

## ***What is SCIRP?***

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

## ***What is Open Access?***

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
