

## Special Issue on Multimedia Technology

### Call for Papers

This special issue on “**Multimedia Technology**” will be focusing on the latest development in computer technology. Multimedia technology is the human-computer interaction techniques, based on the integrated processing of a variety of information, includes text, audio, still images, animation, video, or interactivity content forms. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **multimedia technology**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **multimedia technology**. In this special issue, potential topics include, but are not limited to:

- Categorization of multimedia
- Characteristics of multimedia
- Multimedia technology
- Multimedia authoring tool
- Image processing techniques
- Application of multimedia: commercial, entertainment, and education

Authors should read over the journal’s [Authors’ Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal’s [Paper Submission System](#).

Please kindly note that the “**Special Issue**” under your manuscript title should be specified and the research field “**Special Issue – Multimedia Technology**” should be selected during your submission.

Also please note the following timetable:

Submission Deadline	June 25th, 2014
Publication Date	August 2014
