## Special Issue on Systems and Software Engineering

### Call for Papers

A software system is a system of intercommunicating components based on software forming part of a computer system. The use of the term software system is at times related to the application of systems theory approaches in the context of software engineering. The concept is used in the study of large and complex software, because it focuses on the major components of software and their interactions. Software is prominent in most modern systems architectures and is often the primary means for integrating complex system components. Software engineering and systems engineering are not merely related discipline, they are also intimately intertwined.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Systems and Software Engineering**. Potential topics include, but are not limited to:

- Software, information and communication technologies
- System development and analysis
- Information systems and software engineering
- Software and computational systems
- System verification and validation
- System design and implementation
- System and software architecture
- Configuration management
- Requirements engineering
- Knowledge management systems
- Software process model
- Embedded systems engineering
- Operating of the system
- Control system engineering
- Intelligent manufacturing systems

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Systems and Software Engineering**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 19th, 2021
Publication Date	October 2021

For publishing inquiries, please feel free to contact the Editorial Assistant at [submission.entrance1@scirp.org](mailto:submission.entrance1@scirp.org)
