

## Special Issue on Circular Economy and Sustainability

### Call for Papers

Circular economy, also known as resource recycling economy, is an economic development mode characterized by resource conservation and recycling and harmonious with the environment. It is characterized by low mining, high utilization and low emissions. The circular economy is the process of repeated circulation of material in "resources-products-renewable resources". The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Circular Economy and Sustainability**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Circular Economy and Sustainability**. Potential topics include, but are not limited to:

- Circular economy policies
- Reduce, reuse and recycle
- Circular economy practices
- Renewable energy and resource recovery
- Sustainable agriculture
- Business models
- Circular economy and industry
- Sustainable development
- Economic assessment
- Strategic management and circular economy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the "**Special Issue**" under your manuscript title. The research field "**Special Issue - Circular Economy and Sustainability**" should be selected during your submission.

Special Issue Timetable:

Submission Deadline	August 31st, 2020
Publication Date	October 2020

**Guest Editor:**

**Scientific Research**  
*Open Access*

**Open Journal of Social  
Sciences**

ISSN Online: 2327-5960
