

Special Issue on Energy Economics

Call for Papers

Energy economics is an academic field that explores the economic aspects of energy production, consumption, and policies. It involves studying the relationship between energy markets, government regulations, and economic systems. Researchers analyze factors like energy prices, supply and demand dynamics, energy efficiency, renewable energy technologies, and the environmental impact of energy production. Energy economists provide insights and recommendations for optimizing energy resources, ensuring energy security, and addressing challenges such as climate change and sustainable development in the energy sector.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Energy Economics**. Potential topics include, but are not limited to:

- Investment and decision-making
- Electricity market design and regulation
- Energy policy analysis and evaluation
- Energy markets and pricing
- Energy finance and market
- Economics of oil and gas
- Energy prices and inflation
- Global energy crisis
- Energy trade policy
- Economic assessment of energy system
- Energy transitions in emerging economies
- Renewable and alternative energy
- Low-carbon economy
- Energy, the environment, climate change and renewable energy technologies
- Energy security and political and economic factors
- Energy infrastructure and investment
- Energy demand modeling and forecasting
- Energy efficiency and conservation
- Energy transition and renewable energy economics
- Affordability, availability, and accessibility of energy
- Energy economics and decision-making

Authors should read over the journal's [For Authors](#) carefully before submission.

Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – *Energy Economics***” should be chosen during your submission.

According to the following timetable:

Submission Deadline	April 8th, 2024
Publication Date	June 2024
