**Special Issue on**  
**Financial Innovations and Financial Inclusion**  
**Call for Papers**

**Financial innovations and financial inclusion** refer to the development and implementation of new financial products, services, and technologies aimed at improving access to and usage of financial resources, especially for underserved and marginalized populations. This academic topic explores the intersection of finance and technology to enhance the inclusivity of financial systems, fostering economic growth and reducing disparities in access to financial services.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Financial Innovations and Financial Inclusion**. Potential topics include, but are not limited to:

- Economic models of innovation
- Innovation and economic growth
- Entrepreneurship and innovation
- Financing of R&D and innovation
- Marketing innovation
- Markets for technology
- Consumer-driven innovation
- Economics of innovation and new technology
- High-tech industry agglomeration
- Innovation, productivity, global economy and growth
- Innovation, policy and sustainable development
- Financial innovation and structural change
- Innovation strategy
- Competition, cooperation, and innovation
- Innovation and trade
- Innovation and knowledge economy
