## Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Composites
- Design and Drafting
- Finite element analysis
- Friction stir welding (FSW)
- Kinematics
- Mechanics
- Mechatronics
- Mechatronics and robotics
- Micro electro-mechanical systems (MEMS)
- Nanotechnology
- Structural analysis
- Thermodynamics and thermo-science

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.
