

Table of Contents

Volume 12 Number 2

February 2024

Optimization of Methylene Blue Dye Adsorption onto Coconut Husk Cellulose Using Response Surface Methodology: Adsorption Kinetics, Isotherms and Reusability Studies

F. O. Omwoyo, G. Otieno 1

Composite Panels from the Combination of Rice Husk and Wood Chips with a Natural Resin Based on Tannins Reinforced with Sugar Cane Molasses Intended for Building Insulation: Physico-Mechanical and Thermal Properties

P. N. D. Djonga, R. S. Deramne, G. Assoulaye, A. Tom, T. J. Zaida 19

Clay Materials for Ceramics Application from N'Djamena in the Chad Republic: Mineralogical, Physicochemical and Microstructural Characterization

N. Madjihingam, D. Pagore, J. R. Mache, B. Warabi, B. P. Kagonbe, P. M. Kouotou 31

Evaluation of Particle Properties of MgO/TiO₂ Material by Monte Carlo Simulation Method

K. N. P. G. Allangba, Y. K. H. Fagnidi, H. N'guessan, Z. Traoré, K. A. Kamenan 49

Study on Acoustic Emission Characteristics of Deformation Damage Process of Zirconia Ceramics

Q. C. Fu, Y. S. Lai 61

Effects of Standing Time during Pretreatment on the Nitrite Concentration Detected by Spectrophotometric Method

Y. F. Zeng, J. Hu, X. L. Bian, Q. F. Xia, T. W. Hu 73

Preparation of Corncob-Like WO₃ Nanomaterials and Their Photocatalytic Treatment of Toluene

J. H. Wang, L. Lu, B. Xu, H. F. Xu, H. W. Liu 84
