

Special Issue on Animal Nutrition and Feed

Call for Papers

Animal feed plays an important part in the food chain and has implications for the composition and quality of the livestock products that people consume. Animal nutrition includes elements of feed science, nutrition physiology, assessment of the quality of primary foods and the generation of noxious emissions of methane and nitrogen from livestock husbandry.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Animal Nutrition and Feed**. Potential topics include, but are not limited to:

- Feed security
- Nutritional evaluation of feeds
- Animal nutrition physiology and biochemistry
- Animal nutrition and products
- Feed additives
- Feed biotechnology
- Metabolism of nutrients in animal
- Nutrition and pathology
- Methods of conserving and processing feeds

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Animal Nutrition and Feed**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	May 31st, 2016
Publication Date	July 2016
