

Special Issue on Animal Reproduction

Call for Papers

The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in area of animal reproduction.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Animal Reproduction**. Potential topics include, but are not limited to:

- Natural and artificial control of reproduction
- Preservation and use of gametes and embryos
- Pregnancy and parturition
- Infertility and sterility
- Reproductive systems
- Reproductive cycles
- Diagnostic and therapeutic techniques
- Reproductive physiology and endocrinology
- Developmental competence of oocytes and embryos
- Artificial insemination
- Sperm membrane and seminal plasma proteomics
- Embryo transfer and other assisted reproductive technologies

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Animal Reproduction**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	February 23rd, 2017
Publication Date	April 2017
