

Special Issue on Animal and Environmental Sciences

Call for Papers

Animal science is concerned with the science and business of producing domestic livestock species. The livestock production and management has influences and relationship to the environment. Environmental technology is used in animal management. Animal environment and health are also closely related.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Animal and Environmental Sciences**. Potential topics include, but are not limited to:

- Animal breeding
- Animal husbandry
- Animal biotechnology
- Animal behavior
- Biodiversity
- Wildlife ecology
- Conservation biology
- Environmental biology
- Environmental management
- Biological sciences with sustainability
- Animal hygiene and environmental health
- Animal welfare
- Veterinary pathology
- Veterinary nursing
- Animals and COVID-19

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Animal and Environmental Sciences**” should be chosen during your submission.

According to the following timetable:

| | |
|---------------------|-------------------|
| Submission Deadline | August 16th, 2022 |
| Publication Date | October 2022 |
