

Special Issue on Engineering Research for Economic Advancement

Call for Papers

In modern times, scientific and technology are advancing by leaps and bounds and all countries are attaching greater importance to the important role of scientific and technological advancement in social-economic development. The relationship is invading almost every domain of our lives, such as agriculture and industry, communications, transport and posts, city life and building industry, commerce and foreign trade, environmental protection and health, education and culture, etc. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **engineering research for economic advancement**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **engineering research for economic advancement**.

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Engineering Research for Economic Advancement**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	October 30th, 2014
Publication Date	December 2014

Guest Editor:

Prof. **Nnenesi Kgabi**

Polytechnic of Namibia, Namibia
