

Special Issue on Science and Technology Innovations

Call for Papers

Technological innovation is the process where an organization (or a group of people working outside a structured organization) embarks in a journey where the importance of technology as a source of innovation has been identified as a critical success factor for increased market competitiveness. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of **Science and Technology Innovations**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Science and Technology Innovations**. In this special issue, potential topics include, but are not limited to:

- Technology innovation
- Agricultural innovation
- Cultural innovation
- Education innovation
- Economic innovation
- Industrial innovation
- The revolution of science and technology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Science and Technology Innovations**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 15th 2022
Publication Date	May 2022
