

Special Issue on Civil and Environmental Engineering

Call for Papers

Civil and Environmental Engineering focuses on the expertise in structural, environmental, geotechnical and water resource engineering. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the area of Civil and Environmental Engineering.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Civil and Environmental Engineering**. Potential topics include, but are not limited to:

- Advanced infrastructure systems
- Built and natural environments
- Chemicals in the environment
- Coastal zone
- Ecosystems
- Energy in buildings
- Engineering mechanics
- Environmental engineering applications
- Frameworks and models in engineering systems
- Industrial ecology
- Infrastructure engineering
- Mechanics, materials, and computing
- Project management
- Smart cities
- Water and air quality science and engineering
- Water and energy resources
- Water and sanitation infrastructure

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Civil and Environmental Engineering**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	June 28th, 2024
Publication Date	August 2024
