

## Special Issue on Desert Ecosystem

### Call for Papers

Though a desert may seem like a barren land, the **desert ecosystem** is one of the most diverse when it comes to ‘unique’ flora and fauna. In the harsh environment, the key to survival is adaptation, and that is made obvious by several plants and animals over the years. The **desert ecosystem** offers many strange and unusual adaptations between plant and animal to make sure their survival.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **desert ecosystem**. Potential topics include, but are not limited to:

- Animals in desert
- Plants in desert
- Biome adaptations
- The influence of climate
- Desert ecosystem modeling
- The impact of human activity on desert ecosystem

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Desert Ecosystem**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	January 22nd, 2015
Publication Date	March 2015
