

Special Issue on Laparoscopic Surgery

Call for Papers

Laparoscopic Surgery, also called minimally invasive surgery (MIS), bandaid surgery, or keyhole surgery, is a modern surgical technique in which operations are performed far from their location through small incisions (usually 0.5–1.5 cm) elsewhere in the body.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **laparoscopic surgery**. Potential topics include, but are not limited to:

- Advantages of laparoscopy
- Disadvantages of laparoscopy
- Risks of laparoscopy
- Recovery
- Robotic-assisted laparoscopy
- Cases

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Laparoscopic Surgery**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	May 24th, 2018
Publication Date	July 2018
