TABLE OF CONTENTS

Volume 3, Number 4, November 2013

Expression and localization of prostaglandin receptors and stromal factors in human cervix—Variations in pregnant and non-pregnant states

C. S. Blesson, N. Roos, O. Stephansson, B. Masironi, S. Reinert, Y. V. Stjernholm, G. Ekman-Ordeberg, L. Sahlin.....147

Assessment of voluntary rhythmic muscle contraction-induced exercising blood flow variability measured by Doppler ultrasound

T. Osada, B. Saltin, G. Rådegran.....158

Morphine has latent deleterious effects on the ventilatory responses to a hypoxic challenge

W. J. May, R. B. Gruber, J. F. Discala, V. Puskovic, F. Henderson, L. A. Palmer, S. J. Lewis.....166

Endothelium derived relaxation factors reduce sulfur dioxide-induced aortic relaxation

O. A. M. Al-Habib, A. B. Q. Salihi.....181

The acid-base regulation by renal proximal tubule

S. Horita, O. Yamazaki, M. Nakamura, H. Yamada, M. Suzuki, G. Seki.....186

Erythrocyte shape transformation in physiological regulation of blood viscosity

L. N. Katiukhin.....194

Annexin v-binding and assisted reproduction technologies

F. Denaday.....199

Extremely low-volume, high-intensity interval training improves exercise capacity and increases mitochondrial protein content in human skeletal muscle

J. K. Ma, T. D. Scribbans, B. A. Edgett, J. C. Boyd, C. A. Simpson, J. P. Little, B. J. Gurd.....202

Open Journal of Molecular and Integrative Physiology (OJMIP) is an international journal dedicated to the latest advancement of Physiology. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Physiology.

Subject Coverage

The journal publishes original papers including but not limited to the following fields:

- Cardiovascular Physiology
- Cell Physiology
- Endocrinology
- Gastrointestinal Physiology
- Human and Animal Physiology
- Integrative Physiology
- Molecular Physiology
- Musculoskeletal Physiology
- Neurophysiology
- Renal Physiology
- Reproductive Physiology
- Respiratory Physiology
- Skin Physiology

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
