

Special Issue on Advances in Healthcare Research

Call for Papers

Advances in healthcare research refers to the progress and developments made in the field of healthcare research, with a focus on improving medical knowledge, patient outcomes, and healthcare delivery. It encompasses a wide range of disciplines and subfields that contribute to enhancing our understanding of diseases, treatment strategies, and healthcare practices. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in this area of **Advances in Healthcare Research**.

In this special issue, we invite front-line researchers and authors to submit original research and review articles that explore **Advances in Healthcare Research**. In this special issue, potential topics include, but are not limited to:

- Biomedical research
- Clinical research
- Epidemiology
- Health services research
- Health informatics
- Public health research
- Pharmaceutical research
- Sociology and health care

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Advances in Healthcare Research**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	May 26th, 2024
Publication Date	July 2024
