

Special Issue on Complications of Pregnancy

Call for Papers

This special issue on “**Complications of Pregnancy**” will be focusing on the latest development in health problems that occur during pregnancy. They can involve the mother's health, the baby's health, or both. The most common pregnancy complications include gestational diabetes, gestational hypertension, preeclampsia and so on. It is very important for women to receive health care before and during pregnancy to decrease the risk of pregnancy complications.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **Complications of Pregnancy**. Potential topics include, but are not limited to:

- Gestational hypertension
- Gestational diabetes
- Preeclampsia
- Ectopic Pregnancy

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Complications of Pregnancy**” should be chosen during your submission.

According to the following timetable:

Manuscript Due	December 27th, 2013
Publication Date	February 2014

Guest Editor:

Prof. **Christos E. Constantinou**

Stanford University Medical School, USA
