

## Special Issue on Midwifery Research

### Call for Papers

This special issue on “**Midwifery Research**” will be focusing on the latest development in midwifery. Midwifery is a branch of Obstetrics and Gynecology and is a health care profession in which providers offer care to childbearing women during pregnancy, labor and birth, during the postpartum period, and between pregnancies. Practitioners of midwifery is known as midwives, they help care for the newborn and assist the mother with breastfeeding and also provide birth control, education and prescriptions for well-woman health care as well. As one of the most important research fields of human health, **midwifery research** is of great attractions to researchers.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **midwifery research**. Potential topics include, but are not limited to:

- Health care profession
- Well-woman health care
- Care for the newborn
- Postnatal care
- Antenatal care
- Maternity care

Authors should read over the journal’s [Authors’ Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue - Midwifery Research**” should be chosen during your submission.

According to the following timetable:

Manuscript Due	March 26th, 2014
Publication Date	May 2014
