

Special Issue on Postpartum Care

Call for Papers

The **postpartum** period covers the 6-week period after birth, during which the various changes that occurred during pregnancy revert to the non-pregnant state. The major focus of **postpartum care** is to ensure that the mother is healthy and able to take care of her newborn, equipped with all the information she needs about breastfeeding, reproductive health and contraception, and the adaptation to imminent life.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **postpartum care**. Potential topics include, but are not limited to:

- Physiological changes
- Commonly puerperal problems
- Serious maternal health problems
- Postnatal care
- Maternal activity
- Breast- and bottle-feeding
- Postpartum Contraception

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Postpartum Care**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	January 28th, 2015
Publication Date	March 2015
