

Special Issue on Complications of Pregnancy

Call for Papers

Complications of pregnancy are health conditions that may need special care. The complications range from minor to life threatening. It may develop gradually or suddenly and without warning. Problems during pregnancy may include physical and mental conditions that affect the health of the mother, the baby or both. These problems can be caused by or can be made worse by being pregnant.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Complications of Pregnancy**. Potential topics include, but are not limited to:

- Hyperemesis gravidarum
- High blood pressure
- Preeclampsia
- Shoulder dystocia
- Gestational diabetes
- Haemorrhage
- Abdominal pain
- Choriocarcinoma
- Depression

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Complications of Pregnancy**” should be selected during your submission.
