

## Special Issue on Infertility and Reproduction

### Call for Papers

In general, infertility means not being able to get pregnant (conceive) after one year of regular, unprotected sex. Male infertility is as common as female infertility. The causes include varicoceles, medical conditions, unhealthy habits, environmental toxins, ovarian dysfunction and so on.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Infertility and Reproduction**. Potential topics include, but are not limited to:

- Infertility in women
- Infertility in men
- Polycystic ovary syndrome
- Endometriosis
- Infertility treatments
- Assisted reproduction
- Artificial insemination
- Egg donation
- Infertility tests

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Infertility and Reproduction**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	October 31st, 2016
Publication Date	December 2016
