

Special Issue on Postpartum Care

Call for Papers

Attention to pregnancy care mostly focuses on the nine months of pregnancy, while postpartum care is also very important. The postpartum period lasts six to eight weeks, beginning right after the birth of a child. During this period, the mother goes through many physical and emotional changes while learning to care for her newborn.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Postpartum Care**. Potential topics include, but are not limited to:

- Maternal care
- Newborn care
- Vaginal care
- Wound care
- Breastfeeding
- Postnatal depression
- Postpartum haemorrhage
- Puerperal fever

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Postpartum Care**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 16th, 2017
Publication Date	January 2018
