
Special Issue on Cervical Cancer

Call for Papers

Cervical Cancer occurs when abnormal cells on the cervix camera.gif grow out of control. The cervix is the lower part of the uterus that opens into the vagina. Cervical cancer can often be successfully treated when it's found early. It is usually found at a very early stage through a Pap test.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **cervical cancer**. Potential topics include, but are not limited to:

- Signs and symptoms
- Risks and causes
- Screening
- Treatment for abnormal cervical cells
- Stages, types and grades
- Treatment for cervical cancer
- Advanced cervical cancer
- Living with cervical cancer
- Research and clinical trials
- Survival
- Epidemiology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Cervical Cancer**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	March 20th, 2018
Publication Date	May 2018
