
Special Issue on Breast Health

Call for Papers

Breasts come in all shapes and sizes and will change from adolescence to menopause. Breast lumps, cysts, mastitis and painful breasts can occur in many women. In females, it serves as the mammary gland, which produces and secretes milk and feeds infants.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **breast health**. Potential topics include, but are not limited to:

- Breast development
- Breast examination
- Breastfeeding
- Mastitis
- Mastalgia
- Breast cancer
- Plastic surgery
- Mastectomy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Breast Health**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	April 27th, 2018
Publication Date	June 2018
