## Special Issue on High Risk Pregnancy

### Call for Papers

**High risk pregnancy** is one of greater risk to the mother or her fetus than an uncomplicated pregnancy. Pregnancy places additional physical and emotional stress on a woman's body. Health problems that occur before a woman becomes pregnant or during pregnancy may also increase the likelihood for a high-risk pregnancy.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **High Risk Pregnancy**. Potential topics include, but are not limited to:

- Infections, diseases treatment in pregnancy
- Multiple pregnancy
- Pregnancy, preterm delivery and miscarriage
- Pregnancy complications
- Diabetic pregnancy
- Smoking and drinking in pregnancy
- Cancer therapy during pregnancy
- Relation between pregnancy risk and maternal age
- Down syndrome screening
- Preeclampsia

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – High Risk Pregnancy**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	January 17th, 2019
Publication Date	March 2019
