## Special Issue on Infertility & Reproductive Medicine

### Call for Papers

Infertility is diminished or absent ability to conceive and bear offspring. Infertility can have many causes and may be related to factors in the male, female, or both. Treatments can include medications and assisted reproductive technologies.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Infertility & Reproductive Medicine**. Potential topics include, but are not limited to:

- Treatment and management
- IVF and ART
- Reproductive disorders and techniques
- Reproductive endocrinology and infertility
- ICSI treatment
- Recurrent miscarriage
- Pregnancy loss
- Male-factor related infertility
- Implantation defects and failure

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Infertility & Reproductive Medicine**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	September 24th, 2019
Publication Date	November 2019

For publishing inquiries, please feel free to contact the Editorial Assistant at [submission.entrance1@scirp.org](mailto:submission.entrance1@scirp.org)
