

Special Issue on Infertility & Reproductive Medicine

Call for Papers

Infertility is diminished or absent ability to conceive and bear offspring. Infertility can have many causes and may be related to factors in the male, female, or both. Treatments can include medications and assisted reproductive technologies.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Infertility & Reproductive Medicine**. Potential topics include, but are not limited to:

- Reproductive endocrinology & fertility
- Assisted reproductive technology
- IVF / ICSI Treatment
- Embryo transfer
- Reproductive disorders and therapy
- Infertility and reproductive surgery
- Recurrent miscarriage
- Management of polycystic ovary syndrome
- Endometriosis
- Male factor infertility and sperm study
- Nutrition associated factors
- Genetic screening
- Artificial intelligence in reproductive medicine
- Impacts of coronavirus disease 2019

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Infertility & Reproductive Medicine**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	August 16th, 2021
Publication Date	October 2021
