

Special Issue on Bone Diseases and Disorders

Call for Papers

Our bones help us move and support our body. They are living tissues that rebuild constantly throughout our life. Bone diseases are disorders and conditions that cause abnormal development and/or impairment in normal bone development, which can result in weakened bones, inflamed joints and pain.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Bone Diseases and Disorders**. Potential topics include, but are not limited to:

- Bone density
- Bone infection
- Bone inflammation
- Bone resorption
- Bone tumor
- Multiple myeloma
- Osteoarthritis
- Osteomyelitis
- Osteopenia
- Osteoporosis
- Osteosarcoma
- Osteotomy
- Scoliosis
- Skeletal disease

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Bone Diseases and Disorders**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 30th, 2024
Publication Date	March 2024
