

# CALL FOR PAPERS

## SPECIAL ISSUE

### AFRICAN CONTRIBUTIONS TO PHILOSOPHY IN THE GLOBALIZED WORLD IN THE LIGHT OF PROFESSOR MADUABUCHI DUKOR'S "FOUR GREAT WORKS ON AFRICAN PHILOSOPHY"

The objective of this special issue is to distillate a cosmic view fundamental enough for the renewal of political, scientific and ethical life in a globalized world. It is believed that approaching these subject matters in the light of Maduabuchi Dukor's "four great works on African Philosophy" will refresh an insight from African philosophical point of view vis-à-vis western perspectives; ***THEISTIC HUMANISM OF AFRICAN PHILOSOPHY*** (Lambert Academic Publishing AG and Co. Germany, 2010, [www.lap-publishing.com](http://www.lap-publishing.com)) ***SCIENTIFIC PARADIGM IN AFRICAN PHILOSOPHY*** (Lambert Academic Publishing AG and Co. Germany, 2010, [www.lap-publishing.com](http://www.lap-publishing.com)) ***AFRICAN PHILOSOPHY IN THE GLOBAL VILLAGE*** (Lambert Academic Publishing AG and Co. Germany, 2010, [www.lap-publishing.com](http://www.lap-publishing.com)) ***AFRICAN FREEDOM: THE FREEDOM OF PHILOSOPHY*** (Lambert Academic Publishing AG and Co. Germany, 2009, [www.lap-publishing.com](http://www.lap-publishing.com)) As an academic theoretical and scientific engagement, the global imports of these works will be better achieved by a free syntheses, intercourse, interrogations, conversations and critical reflections upon significant advocacies and postulations of modern, postmodern and contemporary western and African scholars such as Jurgen Habermas, Placid Tempels, Levy Bruhl, William Abraham, Kwasi Wiredu, kwame Gyekye, C.B. Okoro and so on. Concerned philosophers should employ critical discourses in Dukor's four great works on African Philosophy in further interrogations on the nature of human problems within and outside the preview of African Philosophy. Papers are therefore elicited from multidisciplinary concerns of philosophy in science, history, anthropology, politics economics, religion such as,
