

## Special Issue on Pharmaceutical Analysis

### Call for Papers

**Pharmaceutical Analysis** plays an important role in both the development process and GMP manufacturing. Concerns about drug safety, costly development programs, complex manufacturing, market demands for evidence-based data and increased regulatory requirements are all issues that can be addressed through a better understanding of your drug substance, drug product or manufacturing process which, in turn, can only be achieved through experienced analytical studies and robust analytical data.

In this special issue, we intend to invite front-line researchers and authors to submit original researches and review articles on exploring **pharmaceutical analysis**. Potential topics include, but are not limited to:

- Traditional Chinese medicine
- Action mechanism and drug metabolism
- Quantitative and qualitative analysis
- Quantitative analysis in biopharmaceutics
- Tracer analysis in molecular pharmacology
- The new technique and method

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal at [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue – Pharmaceutical Analysis**” should be selected during your submission.

Special Issue timetable:

Submission Deadline	January 26th, 2017
Publication Date	March 2017
