

Special Issue on Clinical Pharmacology and Pharmacy

Call for Papers

"Clinical Pharmacology and Pharmacy" is an academic field that involves the study of medicines, their effects on the body, and their safe and effective use in patient care. It focuses on understanding the mechanisms of drug action, drug interactions, and adverse effects. Additionally, it involves optimizing drug therapy through appropriate dosage, patient monitoring, and personalized treatment plans. This field aims to ensure the rational and evidence-based use of medications to improve patient outcomes and contribute to the advancement of healthcare.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Clinical Pharmacology and Pharmacy**. Potential topics include, but are not limited to:

- Pharmacokinetics
- Pharmacodynamics
- Drug discovery and development
- Pharmacogenetics and personalized medicine
- Clinical trials and evidence-Based medicine
- Drug safety
- Pharmacy practice and clinical pharmacy
- Pharmacoepidemiology
- Drug use and clinical decision making
- Pharmacoeconomics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the "**Special Issue**" under your manuscript title is supposed to be specified and the research field "**Special Issue – Clinical Pharmacology and Pharmacy**" should be chosen during your submission.

According to the following timetable:

Submission Deadline	February 27th, 2024
Publication Date	April 2024
