

Special Issue on Cognitive Psychology

Call for Papers

Cognitive psychology is the scientific study of mental processes such as attention, language use, memory, perception, problem solving, creativity, and reasoning. It has been integrated into various other modern disciplines of psychological study, including educational psychology, social psychology, personality psychology, abnormal psychology, developmental psychology, and economics.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Cognitive Psychology**. Potential topics include, but are not limited to:

- Cognitive process and development
- Psychology of learning science
- Cognitive neuroscience
- Cognitive control and emotional intelligence
- Cognitive impairment and psychotherapy
- Cognitive behavioral therapy
- Cognitive style and decision making
- Attention and working memory
- Language acquisition and development
- Metacognition
- Social-cognitive perspectives on personality
- Attention problems
- Alexithymia
- Applications in education

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Cognitive Psychology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	October 25th, 2021
Publication Date	December 2021
