## Special Issue on Applied Cognitive Psychology

### Call for Papers

Applied Cognitive Psychology is a branch of psychology that focuses on how cognitive processes influence behavior in real-world settings. Researchers in this field study how individuals perceive, learn, remember, and problem-solve to improve various aspects of human performance, such as education, healthcare, and human-computer interaction. By applying principles of cognitive psychology to practical situations, researchers aim to optimize mental processes and enhance decision-making, problem-solving, and overall cognitive functioning.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Applied Cognitive Psychology**. Potential topics include, but are not limited to:

- Cognitive modeling
- Intelligence and working memory
- Cognitive psychology of emotion
- Cognitive development
- Mental models in cognitive change
- Reasoning and problem solving
- Decision making and judgment
- Cognition and personality
- Cognitive psychology in education
- Language and cognition
- Learning and skill acquisition
- Cognitive ergonomics
- Clinical cognitive psychology
- Cognitive interventions and therapy
- Cognitive behavioral therapy
- Cognitive rehabilitation
- Environmental psychology
- Consumer psychology
- Sport and exercise psychology
- Cognitive training and enhancement
- Cognitive assessment and measurement
- Cognitive aging

**Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).**

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – *Applied Cognitive Psychology***” should be chosen during your submission.

According to the following timetable:

Submission Deadline	June 24th, 2024
Publication Date	August 2024
