Soft Nanoscience Letters (SNL)

ISSN 2160-0600 (Print) ISSN 2160-0740 (Online) http://www.scirp.org/journal/snl

Soft Nanoscience Letters (SNL) is a newly launched multidisciplinary peer-reviewed journal covering fundamental and applied research in the field of soft nanoscience, which includes polymers and colloids. This will necessarily address nanostructured polymers (e.g. block copolymers), nanocomposites, physical gels, microemulsions, surface/interface modification, new processes (e.g. electrospinning/spraying), confinement effects, the organic/biological interface, and responsive/functional polymers. Results may be experimental, theoretical or simulation in nature.

Subject Coverage

- Nano-biological Systems
- Nano-biotechnology
- Nano-devices
- · Nano-electronics
- Nano-fabrication
- · Nanofluidics and Nanoscale Flow
- Nano-material Processing

- Nano-material Synthesis
- Nano-mechanics
- Nano-medicine
- Nano-optics
- · Nano-probes
- Nano-properties
- Nano-spectroscopy

- Nano-structures
- Nano-theory and Computation
- Nano-toxicology
- Organic Nanocrystals
- Organic/Polymeric Nanoparticles
- Polymer Nanocomposites

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
