

## Special Issue on Arthritis

### Call for Papers

Arthritis is inflammation of one or more joints. Joints are places where two bones meet, such as the elbow or knee. There are over 100 different forms of arthritis. The main symptoms are pain, stiffness and swelling in and around one or more joints. Osteoarthritis is the most common type of arthritis which is often related to aging or an injury.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Arthritis**. Potential topics include, but are not limited to:

- Osteoarthritis
- Cervical spondylosis
- Enteropathic arthritis
- Rheumatoid arthritis
- Septic arthritis
- Ankylosing spondylitis
- Juvenile idiopathic arthritis
- Psoriatic arthritis
- Reactive arthritis

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Arthritis**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	November 18th, 2015
Publication Date	January 2016
