

Special Issue on Microsurgery

Call for Papers

Microsurgery is the surgery using operating microscopes and miniaturized precision instruments to perform intricate procedures on very small structures such as blood vessels nerves and tubes. The most important tools used by the microsurgeon are the microscope, microsurgical instruments, and microsuture materials.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Microsurgery**. Potential topics include, but are not limited to:

- Plastic & reconstructive surgery
- Orthopedic surgery
- Gynecological surgery
- Oral & maxillofacial surgery
- Podiatric surgery
- Neuroorrhaphy
- Vascular anastomosis
- Lymphatic microsuture

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Microsurgery**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 12th, 2016
Publication Date	March 2016
